Specification Summary

Brand	Asec
Product type	Asec

Product Description

The Asec AS4300 Series Lever Operated Digital Lock (AS4307) is a heavy-duty mechanical combination lock designed specifically for integration with panic exit hardware. Supplied complete with an adaptor kit and spindles, this digital lock is ideal for use with Asec Panic Hardware on medium to heavy-duty internal or external timber doors.

Featuring a robust 12-button keypad, the lock offers over 2,000 possible code combinations to ensure secure access control. Its clutched handle mechanism is designed to rotate freely when locked, protecting the internal components from forced entry and vandalism. The unit is fully reversible, making it suitable for both left and right-

handed doors. Please note that this model is supplied without a latch, as it is intended to operate in conjunction with an existing panic latch or device.

With a high-quality stainless steel finish and a 5-year manufacturer's guarantee, this digital lock provides a reliable, keyless entry solution for commercial and public buildings.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
