Specification Summary

Brand	Asec
Product type	Asec

Product Description

The Asec AS4300 Series Lever Operated Digital Lock (AS4309) offers a highly secure and convenient access control solution for medium to heavy-duty timber doors. Designed for both internal and external applications, this robust mechanical digital lock features an innovative "Easy Code Change" function. This allows users to quickly update the entry code from the outside of the door without having to remove the unit from the door face.

For added convenience, the AS4309 includes a key override facility (supplied with three keys) to allow manual key access when required. It also features an optional free passage mode, enabling unrestricted entry during busy periods without needing to enter a code. The lock is equipped with a free-turning lever handle that helps protect the internal mechanism against forced entry, alongside 12 large indented buttons for easy operation. It is fully reversible to suit both left and right-handed doors.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS4309
- **Finish:** Stainless Steel
- **Backset:** 55mm
- **Case Depth Required:** 84mm
- **Door Thickness:** 35mm to 65mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
