Product type	Asec

Product Description

The Asec AS4303 Easy Code Change Digital Lock from the AS4300 Series is a robust, heavy-duty mechanical keyless entry solution designed for medium to heavy-duty use on both internal and external timber doors. This high-quality digital lock features a convenient "quick and easy code change" function, allowing you to update the access code in seconds using the supplied key without having to remove the unit from the door.

Equipped with a free-turning lever handle on the outside, the lock is designed to resist forced entry attempts and prevent internal damage. It also includes an optional free passage mode, enabling unrestricted access when security is not required. The lock is fully reversible, making it suitable for both left and right-handed doors, and comes complete with a 60mm latch and an 8mm spindle. With over 1,000 possible code combinations and a durable stainless steel finish, this mechanical lock provides reliable, battery-free security backed by a 5-year manufacturer's guarantee.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
