Specification Summary

Brand	Asec
Product type	Asec

Product Description

The Asec AS4300 Series Lever Operated Easy Code Change Digital Lock (AS4308) is a robust mechanical digital lock designed for medium to heavy-duty applications on internal or external timber doors. A standout feature of this model is its quick and easy code change function, which allows users to alter the entry code from the outside without having to remove the unit from the door.

This digital lock is supplied complete with an adaptor kit and spindles specifically for fitting to a panic device, making it ideal for use with Asec Panic Hardware or compatible third-party panic exit devices. It features a free-turning, clutched lever handle that rotates freely when locked to protect the internal mechanism against forced entry. For added convenience, it includes a free passage mode, allowing unrestricted access during busy periods. The unit is fully reversible for left or right-handed doors and is supplied without a latch.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS4308
- **Finish:** Stainless Steel
- **Backset:** 55mm
- **Case Depth Required:** 84mm
- **Door Thickness:** 35mm to 65mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
