Specification Summary

Brand	Asec
Product type	Lever Furniture

Product Description

The Asec Ashstead Plate Mounted Lever Furniture is an attractive and robust door handle set designed for internal doors. Supplied as a complete pair, these handles come with fixing screws and a standard 8mm spindle, ensuring a straightforward installation.

These handles are available in a choice of high-quality finishes, including Polished Brass and Chrome Plated, to complement your interior decor. Depending on your door's requirements, you can select from either a short plate (122mm) or a long plate (170mm) design. Additionally, they are offered in both latch-only and UK mortice lock configurations.

Please choose your preferred finish, plate length, and mechanism type from the options below to find the perfect fit for your door.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
