Product Description

The Asec Assorted Coloured Lanyards offer a practical and highly visible solution for keeping keys, ID badges, and access cards secure and easily accessible. Designed for everyday convenience, each lanyard features a durable metal spring clip front attachment to hold your items securely, alongside a plastic intermediate short-release clip that allows you to detach your keys quickly and easily without needing to remove the entire lanyard from your neck.

Supplied on a card of 12, this pack contains an assortment of bright, eye-catching colours, including yellow, blue, red, and green. This makes them ideal for colour-coding access levels, organising staff in busy environments, or distributing among teams in schools, offices, and events. With a generous length of 99cm, they provide a comfortable fit for daily wear.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
