Product Description

The Asec Assorted Split Rings Countertop Display is a highly practical addition to any retail counter, key cutting station, or workshop. Designed to drive impulse add-on sales or simply provide a neat, organised storage solution for your workspace, this compact display box keeps essential split rings easily accessible.

This set contains 320 high-quality split rings sorted into six popular sizes, allowing customers or tradespeople to find the exact size they need quickly. The attractive, sturdy countertop box is designed to sit neatly beside your till or on a workbench, ensuring your stock remains tidy and professionally presented.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
