Product Description

The Asec "Automatic Door" sign is a simple and effective solution for clearly identifying automatic doors in commercial, public, or residential buildings. Featuring a clean, high-contrast black and white design, this sign ensures maximum visibility and legibility for visitors, staff, and customers.

Manufactured from durable self-adhesive vinyl, the sign is incredibly easy to install on any smooth, clean surface without the need for screws or additional fixings. Simply peel and stick to doors, glass panels, or adjacent walls. Measuring 150mm x 150mm, it provides a compact yet highly noticeable informational display to help guide foot traffic and maintain safety standards.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
