Product Description

The Asec 'Automatic Fire Door Keep Clear' sign is a mandatory access safety sign designed to ensure clear instruction and compliance with fire safety regulations. It features the standard mandatory blue circle with white text and imagery, indicating a specific course of action that must be followed to keep emergency routes clear.

Constructed from durable, semi-rigid PVC, this sign is self-adhesive, allowing for quick, easy, and secure application to doors and flat surfaces without the need for screws or additional fixings. It is supplied as a convenient sheet containing 6 signs, making it an efficient and cost-effective choice for outfitting multiple fire doors across commercial, industrial, or residential properties.

Ensure your premises meet the necessary safety standards with these highly visible, professional-grade mandatory signs.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
