Specification Summary

Brand	Asec
Product type	Door Bar

Product Description

The Asec Birmingham Door Bar (AS5005) is a highly effective, dual-purpose security bar designed to reinforce wooden door frames against forced entry. Ideal for both commercial and residential applications where security is a priority, this flat security bar can be used to strengthen either the hinge side of the frame or the lock side (specifically when only mortice locks are fitted).

Manufactured from high-grade rolled steel section, this robust door bar provides exceptional resistance to physical attacks, such as kick-ins. It features a durable white powder-coated finish, ensuring it blends seamlessly with standard white door frames while offering long-lasting protection.

At 1.8 metres in length and with a slim 16mm width, it is suitable for most standard door frames and can be cut to size on-site to suit your specific installation requirements.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS5005
- **Length:** 1.8m (1800mm)
- **Width:** 16mm
- **Material:** High-grade rolled steel
- **Finish:** White (Powder coated)
- **Weight:** 680g
- **Pack Quantity:** 1

Key Features

- **Dual-Purpose Reinforcement:** Strengthens either the hinge side of the door frame or the lock side (when mortice locks are fitted).
- **High-Grade Construction:** Manufactured from robust rolled steel section to resist kick-in attacks and forced entry.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
