Specification Summary

Brand	Asec
Product type	Pull

Product Description

The Asec Bolt Fix Aluminium Pull Handle is a durable and stylish round bar pull handle designed for a wide range of commercial and domestic door installations. Manufactured from high-quality aluminium with a polished anodised finish, this pull handle offers both excellent corrosion resistance and a modern, clean aesthetic that complements contemporary interiors.

This handle features a 19mm diameter round bar design and is supplied complete with the necessary fixing screws for a secure, bolt-through installation. It is available in multiple lengths, weights, and manufacturer references to suit different door sizes and specifications. Please choose your preferred option from the selection below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
