Specification Summary

Brand	Asec
Product type	Miscellaneous

Product Description

The Asec Bolt Through Fixing Pack is an essential accessory designed specifically for securing bolt-through door furniture. This high-quality fixing kit ensures a robust and stable installation, preventing door handles and roses from wobbling or pulling away from the door leaf over time.

Each pack is supplied with a versatile selection of components, including two female centre sections, four 25mm machine screws, and two 30mm machine screws. This combination of screw lengths makes the pack highly adaptable, allowing it to easily accommodate a wide variety of door thicknesses. Finished in a clean nickel plating, these fixings offer both durability and a professional appearance that blends seamlessly with modern door hardware.

Whether you are installing new Asec bolt-through handles or replacing worn-out fixings on existing doors, this complete pack provides everything you need for a secure, long-lasting fit.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS3690
- **Finish:** Nickel Plated
- **Pack Quantity:** 1
- **Contents:** 2 x female centre sections, 4 x 25mm machine screws, 2 x 30mm machine screws
- **Weight:** 29g

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
