Product Description

The Asec Bolt Through Tubular Mortice Latch is a reliable and versatile solution designed for internal doors. This high-quality tubular latch is specifically engineered to accommodate bolt-through fixings, allowing you to securely mount your door handles or knobs.

Supplied complete with a matching strike plate and a square forend, this latch features countersunk screw holes to ensure a flush, professional finish on your door. It is fully reversible, making it suitable for both left and right-handed opening doors.

This latch is available in a choice of case depths (63mm or 76mm), lengths (63mm or 76mm), and backsets (45mm or 57mm). It is also offered in two finishes: Polished Brass and Zinc Plated. Please select your required size, finish, and manufacturer reference from the options below to perfectly match your door furniture.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
