Product Description

The Asec Brenton 2A Pattern Padbolt is a traditional, reliable solution for securing gates, shed doors, garages, and outbuildings. Designed to lock the sliding bolt securely in the closed position, it is intended for use with a padlock (sold separately) to provide dependable outdoor or indoor security.

Constructed with a durable zinc-plated finish to help protect against corrosion, this medium-duty 2A pattern padbolt is built for everyday use. It is supplied bagged with a header card, making it ideal for retail merchandiser displays as well as individual domestic projects.

This padbolt is available in multiple lengths, ranging from 10cm to 20cm, with varying weights to suit different door and gate sizes. Please choose your preferred length, weight, and manufacturer reference from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
