Specification Summary

Brand	Asec
Product type	British Standard

Product Description

The Asec BS Nightlatch Housing is a high-quality replacement housing kit designed specifically to suit the high-security Asec British Standard (BS) Nightlatch. This housing acts as a cylinder pull, allowing you to easily pull the door shut from the outside while maintaining a clean, professional appearance.

Please note that this is the housing kit only; the rim cylinder itself is supplied separately.

This nightlatch housing is available in multiple finishes, including Brass, Polished Chrome, and Satin Chrome, with corresponding manufacturer references AS11973, AS11974, and AS11975. Please select your preferred finish and manufacturer reference from the options below to find the ideal fit for your door.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
