Product Description

The Asec Budget Lock Flat Latch Plate is a reliable and cost-effective accessory designed specifically for use with the Asec range of budget locks. Manufactured from solid metal with a clean stainless steel finish, this flat latch plate provides a durable and secure strike point for your budget lock latch.

Designed with ease of installation in mind, it features pre-drilled fixing holes with 54mm screw centres, allowing for quick and straightforward fitting to your door frame. Whether you are replacing an existing latch plate or completing a new installation, this high-quality, lightweight plate ensures smooth and reliable lock operation.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
