Specification Summary

Brand	Asec
Product type	Budget Locks

Product Description

The Asec Budget Rim Lock with Slotted Bolt is a traditional, surface-mounted budget lock designed for a wide variety of low-security applications. Featuring a durable stainless steel lock body and a slotted die-cast bolt, this lock is built for reliable, everyday use in domestic and commercial settings.

This rim lock is handed, meaning you will need to select either the Left Hand or Right Hand option depending on your door's configuration. Please choose your preferred handing from the options below.

Designed for straightforward installation, it has a compact 23mm width and a 9mm depth, making it ideal for narrow stiles or restricted spaces. Please note that this budget lock is supplied without keys (0 keys included) and is typically operated using a standard budget key (available separately).

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
