Product Description

The Asec "Car Park - Vehicles & Contents Left Entirely At Owner's Risk" sign is a highly visible, professional disclaimer sign designed for car parks, private land, and business premises. By clearly displaying this notice, property owners and managers can explicitly state liability terms to visitors and drivers, helping to protect their premises from potential disputes.

Manufactured from durable, semi-rigid PVC, this sign features a self-adhesive backing that allows for quick and easy installation on any clean, flat surface without the need for screws or drilling. The design uses a bold, contrasting red colour to ensure maximum visibility, making it easy to read from a distance. Measuring 200mm by 300mm, it is the ideal size for mounting on walls, doors, or gates.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
