Product Description

The Asec 'Caution: Forklift Trucks' hazard warning sign is designed to alert staff, visitors, and drivers to the potential hazards of operating forklift trucks in the area. Featuring a highly visible black and yellow finish, this sign is ideal for warehouses, loading bays, factories, and other industrial environments where forklifts are in use.

Made from durable, self-adhesive PVC, it is quick and easy to install on any clean, flat surface without the need for screws or additional fixings. Measuring 200mm x 300mm, it provides clear and immediate visibility to help maintain safety standards on your premises.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11517
- **Barcode:** 5015397297891
- **Material:** Self-adhesive PVC
- **Finish:** Black & Yellow

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
