Specification Summary

Brand	Asec
Product type	Necked

Product Description

The Asec Chrome Necked Barrel Bolt is a traditional and reliable solution for securing doors, cupboards, and cabinets from the inside. Featuring a modern polished chrome finish, this bolt offers a clean, professional appearance that seamlessly blends with contemporary home or office ironmongery.

The necked design is specifically engineered to provide extra clearance between the bolt body and the fixing surface. This makes it an ideal choice for doors with mouldings, rebates, raised panels, or uneven frames where standard straight bolts might struggle to align. It can be installed either vertically or horizontally, providing versatile secondary security for internal doors, utility rooms, and French doors.

This product is available in multiple lengths, weights, and manufacturer references. Please select your preferred size and specification from the options below. Each bolt is supplied carded and pre-packed with matching fixing screws for a straightforward installation.

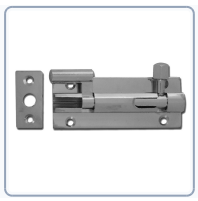

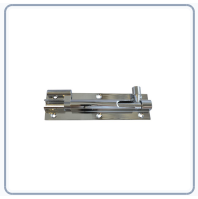

Technical Specifications

- **Brand:** Asec
- **Finish:** Chrome Plated
- **Width:** 25mm
- **Length:** Multiple options available (64mm, 76mm, 10.2cm, and 15.2cm) - please choose from the options below

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
