Specification Summary

Brand	Asec
Product type	Overhead

Product Description

The Asec Classic Size 1-6 Overhead Door Closer is a high-performance architectural door control solution designed for high-use environments. Highly versatile and completely adjustable, this overhead closer is ideal for a wide range of commercial, public, and domestic applications.

A key benefit of this closer is the built-in visual indicator, which makes adjusting the power size (from size 1 to 6) straightforward and precise. It also features built-in backcheck and delayed action options, providing superior control over the door's opening and closing cycles to prevent damage to adjacent walls and ensure safe, accessible passage.

This closer is fire tested for up to 2 hours, making it suitable for fire door installations. It is fully reversible and compatible with Figure 1, Figure 61, and Figure 66 application methods. Supplied with a full cover and a matching arm, this polished brass model offers a clean, cohesive look that seamlessly blends with your existing door hardware.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS3012
- **Strength Size:** 1 to 6
- **Max Door Weight:** 120kg
- **Max Door Width:** 1400mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
