Specification Summary

Brand	Asec
Product type	Overhead

Product Description

The Asec Classic Size 3-4 Overhead Door Closer is a highly versatile and reliable door control solution, suitable for the majority of commercial and residential applications, including fire doors. Designed to meet BS EN 1154 standards, it is fire-tested for up to 2 hours, providing essential safety and peace of mind.

This door closer is fully reversible, making it suitable for both left and right-handed doors. It supports Figure 1, Figure 61, and Figure 66 installation applications, offering excellent flexibility during fitting. With adjustable closing and latching actions, you can easily customise the door's closing speed and final latching force to suit your specific environment. It is capable of handling doors up to 1100mm wide and weighing up to 80kg.

This overhead door closer is available in multiple finishes, including Polished Brass and Satin Stainless Steel, with corresponding manufacturer references AS3010 and AS3050. Please choose your preferred finish and reference from the options below.

Technical Specifications

- **Brand:** Asec
- **Strength Size:** 3 to 4
- **Max Door Width:** 1100mm
- **Max Door Weight:** 80kg
- **Fire Tested:** 2 Hours

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
