### Product Description

The Asec Closed Shackle Padlock with Removable Cylinder is a heavy-duty security solution designed for maximum flexibility and robust protection. Constructed with a 26.5mm thick chrome-plated brass body and a 10mm stainless steel closed shackle, this padlock offers exceptional resistance against physical attacks, particularly bolt cutters.

What sets this padlock apart is its removable cylinder design. It is supplied complete with a standard 40mm (30/10) 5-pin half euro cylinder, three keys, and a retaining screw. Because it accepts standard half euro cylinders without requiring any modification, it is the ideal choice for integration into master key systems or keyed-alike suites. This makes rekeying or upgrading your security straightforward and cost-effective, as you can easily swap out the cylinder rather than replacing the entire padlock.

Whether securing commercial premises, gates, or high-value equipment, this Asec padlock delivers reliable, long-lasting security and versatile key management.

## Technical Specifications

- **Body Width:** 54mm
- **Body Height:** 76mm
- **Body Depth:** 26.5mm
- **Shackle Diameter:** 10mm
- **Horizontal Clearance:** 28mm
- **Vertical Clearance:** 25mm
- **Body Material:** Chrome-plated brass
- **Shackle Material:** Stainless steel
- **Cylinder Type:** 40mm (30/10) half euro cylinder (removable)
- **Mechanism:** 5-pin
- **Keys Supplied:** 3
- **Weight:** 600g

## Key Features

- **Removable Cylinder:** Supplied with a replaceable 40mm (30/10) half euro cylinder, making it perfect for master key and keyed-alike systems.
- **No Modification Required:** Accepts standard half euro cylinders directly for easy integration and rekeying.
- **Closed Shackle Design:** Protects the shackle from attack, offering high resistance against bolt cutters and sawing.
- **Durable Construction:** Features a robust chrome-plated brass body and a corrosion-resistant stainless steel shackle.
- **Complete Kit:** Supplied with 3 keys and a cylinder retaining screw for immediate installation.

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
