Specification Summary

Brand	Asec
Product type	Body Only

Product Description

The Asec Closed Shackle Padlock (Body Only) is a robust, weather-resistant security solution designed to integrate seamlessly into master key systems. It is engineered to accept a standard 40mm (30/10) half Euro cylinder with no cutting or modifications required, allowing you to easily match it to your existing key suites. Please note that the cylinder is not included and must be purchased separately.

Constructed with a 26.5mm thick chrome-plated brass body and a 10mm stainless steel shackle, this padlock provides excellent durability and resistance to corrosion. The closed shackle design significantly reduces exposure to physical attacks, making it highly resistant to bolt cutters and tampering. It is an ideal choice for securing external areas such as garages, gates, and bin stores.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS10869
- **Body Width:** 54mm
- **Body Height:** 76mm
- **Body Depth:** 26.5mm
- **Shackle Diameter:** 10mm
- **Vertical Clearance:** 25mm
- **Horizontal Clearance:** 28mm
- **Finish:** Silver (Chrome plated brass)
- **Shackle Material:** Stainless steel
- **Compatibility:** Standard 40mm (10/30) half Euro cylinder

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
