Specification Summary

Brand	Asec
Product type	Discus

Product Description

The Asec Coloured Discus Padlock range offers an excellent security upgrade compared to standard brass padlocks. Featuring a robust stainless steel body and a closed shackle design, these padlocks significantly reduce the risk of forced entry and shackle attacks.

A standout feature of this range is the protective coloured bumper, which not only shields surfaces from scratches but also allows for quick and easy lock identification. For added security, the padlocks are designed with a key-retaining feature, meaning the key can only be withdrawn when the padlock is fully locked. Additionally, the deadbolt locking lever offers enhanced resistance against prying.

These padlocks are available in multiple finishes and colours, including Chrome Plated with Black, Blue, Green, or Red bumpers, with corresponding manufacturer references (AS10472, AS10473, AS10474, AS10475). Please choose your preferred finish and option from the selection below.

Technical Specifications

- **Body Width:** 70mm
- **Body Height:** 70mm
- **Body Depth:** 28mm
- **Shackle Diameter:** 10mm
- **Horizontal Clearance:** 23mm
- **Vertical Clearance:** 16mm
- **Body Material:** Stainless Steel
- **Keying:** Keyed to differ (supplied with 2 keys)
- **Weight:** 250g
- **Pack Quantity:** 1
- **Packaging:** Visi
- **Finishes:** Chrome Plated with Black, Blue, Green, or Red bumper (please choose below)
- **Manufacturer References:** AS10472, AS10473, AS10474, or AS10475 (please choose below)

Key Features

- **High Security Body:** Stainless steel construction offers superior protection compared to standard brass padlocks
- **Closed Shackle Design:** Reduces vulnerability to forced entry and shackle attacks
- **Coloured Bumper:** Protects surfaces from scratching and allows for quick lock identification
- **Key-Retaining Mechanism:** Key can only be withdrawn when the padlock is securely locked
- **Pry-Resistant:** Deadbolt locking lever resists prying attempts

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
