Specification Summary

Brand	Asec
Product type	Safety Posters

Product Description

The Asec Composite Site Safety Poster is an essential health and safety sign designed to clearly communicate mandatory safe practices and procedures across construction sites, warehouses, and industrial workplaces. Measuring 800mm by 600mm, this large-format sign ensures maximum visibility for staff, visitors, and contractors, helping employers meet their safety obligations.

Manufactured from durable, rigid PVC, this poster is built to withstand demanding environments, making it suitable for indoor or sheltered outdoor use. It features high-contrast print using UV-resistant ink to prevent fading over time,

ensuring the safety messages remain legible. The design incorporates standard mandatory safety symbols - including the blue circle with a white image - to clearly denote specific actions that must be taken on-site. For quick and straightforward installation, the sign comes pre-drilled to accept standard fixing screws.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS4772
- **Barcode:** 5015397146472
- **Material:** Rigid PVC
- **Width:** 800mm
- **Height:** 600mm
- **Finish:** White
- **Legend:** Composite Site Safety
- **Pack Quantity:** 1
- **Weight:** 676g

Key Features

- **High Visibility:** Large 800mm x 600mm format ensures safety messages are easily seen from a distance.
- **Durable Construction:** Made from robust, rigid PVC suitable for demanding workplace environments.
- **UV Resistant:** Printed with UV-resistant ink to prevent fading and maintain legibility.
- **Easy Installation:** Pre-drilled corners allow for quick and secure mounting with fixing screws.
- **Clear Messaging:** Consolidates mandatory safe practices with standard blue and white safety symbols.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
