Specification Summary

Brand	Asec
Product type	Concealed

Product Description

The Asec Concealed Adjustable Door Closer is an economical, reliable, and easy-to-install slam-action door closer designed for internal doors. Recessed directly into the door leaf, this closer remains almost entirely hidden from view when the door is closed. The only visible components are the anchor plate and the connecting chain, making it an ideal choice for maintaining clean, uninterrupted door lines in both modern and traditional interiors.

This door closer is fire tested, meaning it can be incorporated into doors listed to BS476 Part 22 1987 without affecting the integrity of a latched 1/2-hour fire door. It is suitable for internal doors weighing up to 50kg.

This product is available in multiple finishes, weights, and manufacturer references. Please choose from the options below to select your preferred finish (Polished Brass or Polished Chrome), weight (217g or 225g), and corresponding manufacturer reference (AS3030 or AS11415) or barcode.

Technical Specifications

- **Application:** Concealed (recessed into the door)
- **Suitable For:** Internal doors
- **Maximum Door Weight:** 50kg
- **Fire Tested:** 1/2 to 1 hour to BS476 Part 22 1987 (does not affect latched 1/2-hour door integrity)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
