Specification Summary

Brand	Asec
Product type	Cabinet

Product Description

The Asec Concealed Sprung Cabinet Hinge is a reliable and practical hardware solution designed for modern cabinetry. Ideal for kitchen cupboards, wardrobe doors, and bathroom cabinets, these hinges are hidden from view when the door is closed, ensuring a clean, seamless aesthetic across your furniture.

Each hinge features an integrated spring mechanism that helps keep the cabinet doors firmly closed without the need for additional catches. With a standard 35mm depth, they are straightforward to install and compatible with a wide range of standard cabinet doors.

Supplied as a complete pair, this pack includes all the necessary fixing screws, allowing for a quick and hassle-free installation. The zinc-plated finish provides excellent corrosion resistance, ensuring long-lasting operation and durability in everyday domestic environments.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
