Specification Summary

Brand	Asec
Product type	Door Loop

Product Description

The Asec Concealed Door Loop is an ideal solution for architectural and high-end access control applications where maintaining a clean, professional aesthetic is essential. Designed to run wiring discreetly between the door and the frame, this loop is completely concealed from sight when the door is closed, protecting cables from tampering, weather exposure, and accidental damage.

Featuring a flush-fitting design, it sits neatly within the door and frame to provide a seamless appearance. It is perfect for commercial, educational, and secure residential environments where hidden wiring is required for electric locks, door entry systems, or alarms.

This door loop is available in multiple finishes, weights, and references to suit your installation requirements. Please select your preferred options from the list below.

Technical Specifications

- **Brand:** Asec
- **Fitting:** Flush
- **Width:** 24mm
- **Depth:** 17mm
- **Finish:** Black or Chrome Plated (please choose from the options below)
- **Weight:** 280g or 290g (please choose from the options below)
- **Pack Quantity:** 1
- **Packaging:** Boxed
- **Manufacturer Reference:** AS9567 or AS9568 (please choose from the options below)
- **Barcode:** 5055120624273 or 5055120624280 (please choose from the options below)

Key Features

- **Concealed Design:** Completely hidden from sight within the door and frame when closed, ensuring a neat and professional finish.
- **Cable Protection:** Safely routes wiring between the door and frame, protecting it from wear, tampering, and environmental damage.
- **Architectural Appeal:** Ideal for high-end applications where exposed wiring would compromise the aesthetic.
- **Flush Fitting:** Sits flush within the door and frame for a clean, unobtrusive installation.
- **Multiple Finishes:** Available in Black or Chrome Plated finishes to match your door hardware.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
