Specification Summary

Brand	Asec
Product type	Door Stop

Product Description

The Asec Concealed Door Stop Heavy Duty Adjustable is designed to provide robust door control while remaining completely hidden from view when the door is closed. This heavy-duty door stop is ideal for maintaining clean door aesthetics on both residential and commercial properties, preventing doors from opening too far and causing damage to adjacent walls or the door itself.

Engineered for versatility, this concealed door stop fits seamlessly into standard Euro grooves and is suitable for use on all door types, including timber, aluminium, and UPVC. It features an adjustable stop position and adjustable friction, allowing you to customise the door's opening resistance and limit the maximum opening angle up to 125°.

The unit is supplied complete with a track and retaining plate for straightforward installation. Please note that fixing screws are not supplied with this product and must be purchased separately.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11646
- **Material:** Stainless Steel & Zinc Alloy
- **Finish:** Stainless Steel

- **Arm Length:** 440mm
- **Track Length:** 330mm
- **Maximum Opening Angle:** 125°

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
