Specification Summary

Brand	Asec
Product type	Nut Fix

Product Description

The Asec Cranked Cam Latchlock is a practical security solution designed for use with an open shackle padlock. It is ideal for shared environments such as school lockers, leisure centres, and workplace cabinets, allowing users to secure their belongings with their own padlock. This keyless administration system saves time and reduces the hassle of managing replacement keys.

Constructed with a durable chrome-plated finish, this latchlock is built to withstand frequent daily use. It features a 50mm cranked cam bar and is designed for quick, straightforward installation using a secure nut fixing, making it an excellent choice for both new installations and retrofitting.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS9948
- **Body Length:** 20mm
- **Thread Length:** 18mm
- **Body Width:** 18mm
- **Diameter:** 18.5mm
- **Cam Height:** 50mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
