Specification Summary

Brand	Asec
Product type	Self Closing

Product Description

The Asec Cubicle 80mm Gravity Hinge is a durable, high-quality solution designed specifically for cubicle doors. Manufactured from satin stainless steel, this hinge is suitable for use on either 13mm or 20mm boards, making it a versatile choice for commercial washrooms, changing rooms, and public facilities.

A key benefit of this gravity hinge is its on-site adjustability. Installers can easily configure the hinge to either hold the door open or hold it closed, depending on the requirements of the space.

This product is handed and is available in both Left Hand and Right Hand options. Please select your required handing, manufacturer reference, and barcode from the options below to ensure the correct fit for your project. Please note that these hinges are supplied in a pack of two (pair) and do not include fixings.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
