Specification Summary

Brand	Asec
Product type	Accessory

Product Description

The Asec Cubicle U Bracket Gravity Hinges are high-quality, durable hinges designed specifically for commercial and public toilet cubicle doors. Supplied as a pair, these hinges feature a wrap-around U-bracket design that provides a significantly stronger and more secure fixing to the cubicle board compared to standard flat-bracket hinges.

Engineered to suit 13mm cubicle boards, these hinges are non-handed (reversible), making installation straightforward as they can be fitted to either left- or right-hand opening doors. They are fully adjustable, allowing you to set the door to either fall open or fall closed depending on your facility's requirements.

For added convenience and maintenance, the hinges feature a lift-off design, allowing the cubicle doors to be easily removed when required. The package includes high-quality stainless steel T-nuts and woodscrews, along with matching cover plates to neatly conceal the T-nuts for a clean, professional finish. Finished in Satin Anodised Aluminium (SAA), they offer excellent corrosion resistance and a modern aesthetic suitable for any washroom environment.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** L32806
- **Barcode:** 5056240126562
- **Finish:** Satin Anodised Aluminium (SAA)
- **Handing:** Reversible (Non-handed)
- **Suitable For:** 13mm cubicle board
- **Pack Quantity:** 1 Pair

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
