Product Description

The Asec Cubicle U Bracket Gravity Hinges are a robust and reliable solution designed specifically for 20mm cubicle doors. Featuring a wrap-around U-bracket style, these hinges provide a significantly stronger and more secure fixing compared to standard flat-bracket alternatives, making them ideal for high-traffic commercial washrooms and changing facilities.

These gravity hinges are fully reversible (non-handed) and feature a convenient lift-off design, allowing for easy door installation and maintenance. For added versatility, they can be adjusted to either fall open or fall closed depending on your layout requirements.

Each pair is supplied complete with stainless steel T-nuts and woodscrews, along with dedicated cover plates to neatly conceal the T-nuts for a clean, professional finish.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
