Specification Summary

Brand	Asec
Product type	Accessory

Product Description

The Asec Cubicle U-Shaped Keep is designed for use in conjunction with the Asec Cubicle Indicator Bolt on flush-fitting or 'open out' doors. It is an ideal choice for commercial washrooms, changing rooms, and public toilet cubicles.

Crafted with a high-quality satin stainless steel finish, this durable U-shaped keep is fully reversible, allowing for flexible installation on either left or right-handed doors. It is suitable for use on both 13mm and 20mm cubicle boards and comes complete with the necessary wood screws for a quick and straightforward installation.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
