Specification Summary

Brand	Asec
Product type	Electrical

Product Description

The Asec "Danger Electric Shock Risk" safety sign is designed to clearly warn employees, visitors, and contractors of potential high-level electrical hazards in the immediate vicinity. Displaying an unambiguous warning is essential in high-risk environments to help prevent serious injury or accidental contact with live electrical components.

Constructed from durable, semi-rigid PVC, this sign is built to withstand the demands of busy industrial and commercial environments. It features a strong self-adhesive backing, allowing for quick, tool-free installation on most clean, dry, and smooth surfaces. With its bold, high-contrast design, it ensures maximum visibility and legibility to support your workplace safety and compliance requirements.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS4670
- **Legend:** Danger Electric Shock Risk
- **Material:** Semi-rigid PVC
- **Fixing Method:** Self-adhesive backing

- **Width:** 200mm (20cm)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
