Specification Summary

Brand	Asec
Product type	Electrical

Product Description

The Asec 'Danger Electric Shock Risk' sign is an essential safety addition for any commercial, industrial, or residential environment where electrical hazards are present. Designed to clearly warn staff, visitors, and contractors of immediate risks, this sign plays a crucial role in preventing serious injury or accidental contact with live electrical components.

Manufactured from high-quality, semi-rigid PVC, this durable sign is built to withstand everyday wear and tear. It features a strong self-adhesive backing, allowing for quick, tool-free installation on most clean, dry, and smooth surfaces. Measuring 200mm by 50mm, its compact yet highly visible design makes it ideal for mounting directly onto electrical cupboards, fuse boxes, machinery, or restricted access doors.

By clearly displaying this hazard warning sign, you can help maintain a safe working environment and ensure that high-level electrical risks are immediately recognizable to everyone on site.

Technical Specifications

- **Brand:** Asec

- **Manufacturer Reference:** AS4743
- **Material:** Semi-rigid PVC
- **Mounting Type:** Self-adhesive backing
- **Width:** 200mm (20cm)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
