Product Description

The Asec Danger Warning Sign is a highly visible safety sign designed to alert staff, visitors, and the public to potential hazards. Featuring a bold, clearly legible "Danger" legend set against a striking black and yellow finish, this sign ensures immediate recognition and compliance with safety protocols.

Manufactured from durable self-adhesive PVC, this 200mm x 300mm sign is quick and easy to install on most smooth, clean surfaces without the need for screws or specialist tools. It is ideal for commercial premises, warehouses, workshops, and any environment where highlighting immediate risks is essential for safety and risk management.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
