Specification Summary

Brand	Asec
Product type	Till & Drawer Lock

Product Description

The Asec Deadbolt Furniture Lock with a half-moon backplate is a reliable and easy-to-install security solution designed for office desk pedestals, cabinets, cupboards, and drawers. Featuring a 22mm diameter nozzle with a 22mm projection, this deadbolt lock is designed to fit seamlessly into standard furniture setups.

A standout feature of this lock is its flexible head design. When installed in a drawer, the flexible head provides an added layer of safety by reducing the risk of injury or damage if bumped into. For convenient master-key management, the lock can be operated using a 92 series master key, allowing multiple locks to be easily overseen.

This furniture lock is available in multiple configurations to suit your specific security requirements. You can choose between Keyed Alike or Keyed To Differ options, with weights, barcodes, and manufacturer references varying depending on your selection. Please choose your preferred keying option, manufacturer reference, weight, and barcode from the options below.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
