Specification Summary

Brand	Asec
Product type	Discus

Product Description

The Asec Discus Padlock is a high-security 70mm padlock designed specifically to resist forced attacks in outdoor applications. Its classic discus shape and closed shackle design significantly limit exposure to cutting, sawing, and prying tools by remaining tightly enclosed around the staple.

Constructed with a robust stainless steel body, this padlock offers excellent weather resistance, making it ideal for securing gates, sheds, garages, and commercial premises. For added security, the padlock features a deadbolt locking lever that resists prying, and a key-retaining function that ensures the key can only be withdrawn when the padlock is securely locked.

This padlock is available in multiple configurations, including Keyed Alike or Keyed To Differ options, a choice of Boxed or Visi packaging, and weights of 254g or 263g. Please select your preferred options from the choices below.

Technical Specifications

- **Body Width:** 70mm
- **Body Height:** 70mm
- **Body Depth:** 28mm
- **Shackle Diameter:** 10mm
- **Horizontal Clearance:** 23mm
- **Vertical Clearance:** 16mm
- **Body Material:** Stainless Steel
- **Finish:** Chrome Plated
- **Keying Options:** Keyed Alike or Keyed To Differ (please select below)
- **Packaging Options:** Boxed or Visi (please select below)
- **Weight:** 254g or 263g (please select below)
- **Pack Quantity:** 1

Key Features

- **Discus Style Design:** Encloses the shackle tightly around the staple to protect against cutting and prying attacks
- **Weather Resistant:** Durable stainless steel body is ideal for outdoor security applications
- **Closed Shackle:** Limits access for forced entry tools to significantly reduce vulnerability
- **Deadbolt Locking Lever:** Resists prying and physical attacks for enhanced security
- **Key-Retaining Mechanism:** Ensures the key can only be removed when the padlock is fully locked

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
