Specification Summary

Brand	Asec
Product type	Butt

Product Description

The Asec Double Pressed Steel Butt Hinges are designed to offer exceptional strength and durability for your doors. Featuring a double-thickness pressed steel construction, these robust hinges provide extra reinforcement compared to standard hinges, making them ideal for heavy-duty domestic or commercial applications.

Each pack is sold as a pair and comes complete with matching fixing screws, allowing for immediate installation. The hinges feature countersunk screw holes to ensure a clean, flush-fitting finish, and they are designed to fold back a full 90 degrees.

These hinges are available in multiple finishes, including Satin Chrome and Nickel Plated, and in various lengths ranging from 75mm to 15cm. Please select your preferred size, finish, and manufacturer reference from the options below to suit your specific installation requirements.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
