Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

The Asec Double Sided Lockout Tagout Tags are an essential safety solution for any workplace implementing Lockout Tagout (LOTO) procedures. Designed to clearly communicate warning messages, these tags help prevent accidental equipment operation during maintenance or servicing, ensuring compliance with safety protocols and protecting personnel.

Constructed from durable, wear-resistant polypropylene, these tags are built to withstand demanding industrial environments. They feature highly visible red and yellow warning graphics printed with UV-resistant inks to ensure long-lasting clarity and fade resistance. The double-sided design includes the clear legend "Caution - This equipment has been locked out - Do Not Operate" on the front, while the reverse side provides dedicated space for writing specific details, such as the operator's name, date, and remarks.

Each tag is equipped with a sturdy eyelet at the top, allowing for quick and secure attachment directly to a padlock shackle or lockout hasp.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** LOK241 (AS11862)
- **Material:** Polypropylene
- **Width:** 75mm
- **Height:** 135mm
- **Weight:** 54g
- **Finish:** Red & Yellow
- **Legend:** Caution - This equipment has been locked out - Do Not Operate
- **Pack Quantity:** 1
- **Barcode:** 5015397535351

Key Features

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
