Specification Summary

Brand	Asec
Product type	Washer

Product Description

The Asec Double Steel Washer Hinge is a durable and reliable choice designed specifically for internal doors. Combining strength with smooth operation, these hinges are ideal for domestic and light commercial applications where consistent performance is required.

Available in a selection of high-quality finishes, including Polished Brass and Chrome Plated, these hinges complement a wide range of interior hardware. They feature a robust steel pin and double washers - available in double steel, phosphor bronze, or steel bronze configurations depending on the variant - which significantly reduce friction to ensure quiet, seamless door movement.

To accommodate different door weights and installation requirements, these hinges are offered in multiple lengths, widths, and body thicknesses. Each hinge is designed with countersunk screw holes to allow for a flush, neat, and professional finish. Please select your required size, finish, thickness, and washer type from the options below.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
