Specification Summary

Brand	Asec
Product type	Dome

Product Description

The Asec Dual Unit Combined Exit Button and Call Point is a neat, tidy, and highly visible exit solution designed for secure access control systems. Combining a "Press to Exit" dome button and an emergency door release call point into a single, compact surface-mounted housing, it provides an efficient and space-saving solution for emergency egress.

This dual unit features a triple-pole configuration and operates on a 12-24V DC power supply. It is equipped with integrated LED and buzzer indicators, alongside a selectable warning sounder to provide clear status feedback. The emergency door release is fully resettable using a dedicated reset key, removing the hassle and cost of replacing broken glass after activation. With its wear-resistant legend and durable green finish, this unit is built to withstand regular use in busy environments.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11409
- **Finish:** Green
- **Fitting:** Surface
- **Legend:** Press To Exit
- **Pole:** Triple
- **Voltage:** 12-24V DC
- **Resettable:** Yes
- **Width:** 90mm
- **Depth:** 42mm
- **Weight:** 500g

Key Features

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
