Specification Summary

Brand	Asec
Product type	Miscellaneous

Product Description

The Asec Dust Proof Socket is a practical and stylish architectural accessory designed to keep your door cavities clean and functioning smoothly. When installing a flush bolt into a door, the receiving cavity in the floor or frame can easily become clogged with dust, dirt, and everyday debris. This dust-excluding socket solves that problem with an integrated spring-loaded cover.

When the flush bolt is retracted, the spring cover automatically closes to seal the cavity, preventing any unwanted debris from entering. When the bolt is engaged, it simply pushes the cover down out of the way. Crafted with a high-quality satin stainless steel finish, this socket offers a modern look that blends seamlessly with contemporary door hardware. It features a 19mm diameter and a 25mm length, making it a compact yet highly effective solution for both residential and commercial doors.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11871
- **Finish:** Satin Stainless Steel
- **Diameter:** 19mm

- **Length:** 25mm
- **Weight:** 150g
- **Pack Quantity:** 1
- **Packaging:** Bagged

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
