## Product Description

The Asec Electrical Warning Symbol PVC Self-Adhesive Sign is designed to clearly identify potential electrical hazards in the workplace, commercial premises, or public areas. Featuring the universally recognised triangular electrical warning symbol, this sign helps ensure compliance with safety regulations and alerts staff, visitors, and contractors to potential dangers in the vicinity.

Manufactured from durable, high-quality PVC, these signs are built to withstand everyday wear and tear. They feature a strong self-adhesive backing, allowing for quick, tool-free installation on any smooth, clean surface, such

as electrical cabinets, plant room doors, or machinery housings.

This product is supplied as a single 200mm x 300mm sheet containing 6 individual self-adhesive signs (each measuring 100mm x 100mm), making it a cost-effective and convenient solution for marking multiple hazard points.

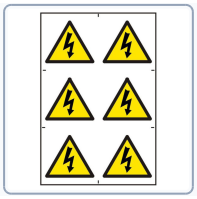

## Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS4676
- **Material:** PVC (Self-adhesive)
- **Finish:** White
- **Legend:** Electrical Warning Symbol
- **Sheet Dimensions:** 200mm x 300mm

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
