Specification Summary

Brand	Asec
Product type	Cylinder - Euro Lock Case

Product Description

The Asec Euro Deadcase is a high-quality mortice cylinder deadlock case, ideal for use on non-fire doors. It is designed to accommodate standard Euro profile cylinders (sold separately), making it a highly versatile choice for both domestic and commercial security applications.

This deadcase features a robust brass deadbolt and is specifically pierced to accept bolt-through escutcheons, ensuring a secure and professional installation. It comes complete with a boxed keep for a clean, neat finish within the door frame.

The Asec Euro Deadcase is available in multiple configurations to suit your specific door requirements. You can choose from case depths of 64mm or 76mm (with corresponding backsets of 44mm or 56mm) and finishes including Polished Brass or Stainless Steel. Please select your preferred size, finish, and specification from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
