Product Description

The Asec 6-Pin Euro Half Cylinder with Adjustable Cam provides a versatile and secure locking solution for single-sided applications. This half cylinder is ideal for use on garage doors, roller shutters, key switches, and control panels where a standard fixed cam is not suitable. Its standout feature is the adjustable cam, which can be easily set to the exact angle required for your specific locking mechanism.

Equipped with a robust 6-pin mechanism, this cylinder offers reliable security and smooth operation. It is supplied keyed to differ and comes complete with three keys.

To suit your installation requirements, this cylinder is available in multiple overall lengths (45mm and 50mm) and a choice of finishes, including Nickel Plated and Polished Brass. Please select your preferred size and finish from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
