Specification Summary

Brand	Asec
Product type	Nightlatches

Product Description

The Asec Euro / Oval Nightlatch Case is a highly versatile, dual-profile mortice nightlatch case designed to accommodate either Euro or Oval profile cylinders. Out of the box, the case is configured for Euro cylinders with a wrap-around conversion plate held securely by three machine screws. To switch to an Oval cylinder, simply remove the three screws and slide the plate off.

This nightlatch case is ideal for access control applications, featuring an anti-thrust device for enhanced security and a field-reversible latch bolt to suit both left and right-handed doors. It also includes an integral knurled wheel roller to hold the latch in a retracted position, enabling a convenient passage mode when required.

Supplied complete with a box strike, faceplate, fitting instructions (including a scale template), and all necessary fixings, this robust steel case is backed by a 10-year manufacturer's guarantee.

This product is available in multiple finishes, weights, and manufacturer references. Please choose your preferred option from the selection below.

Technical Specifications

- **Backset:** 57mm
- **Case Depth:** 76mm
- **Case Height:** 108mm
- **Centres:** 48mm
- **Forend Length:** 165mm
- **Forend Width:** 25mm
- **Handing:** Reversible

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
