Specification Summary

Brand	Asec
Product type	Accessory

Product Description

The Asec Stainless Steel Exit Button Cover is a robust, surface-mounted protective shroud designed to shield surface-fitted exit buttons. This durable cover helps protect the button from outdoor elements and prevents accidental activation, ensuring reliable operation in busy or exposed environments.

Manufactured from high-quality stainless steel, this protective cover is available in multiple options to suit your installation requirements. You can choose between a blank cover with no wording or a version engraved with the "Press To Exit" legend. Please select your preferred legend, manufacturer reference, and barcode from the options below.

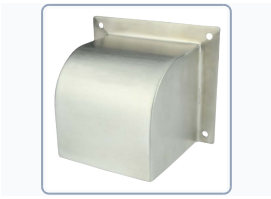

Technical Specifications

- **Width:** 140mm
- **Height:** 120mm
- **Depth:** 100mm
- **Material:** Stainless Steel
- **Fitting:** Surface Mounted
- **Pack Quantity:** 1
- **Weight:** 300g
- **Legend Options:** Blank - No wording or Press To Exit (please choose from the options below)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
